

GUIDELINES FOR USEABLE ARTWORK

Artwork Requirements:

Artwork can be provided as a hard copy, on a disk, or emailed to your salesperson. Max file size for emailed artwork is 10MB. Trophy Awards uses PC format design programs and cannot guarantee files sent from a Macintosh computer.

Information Regarding Digital Artwork:

If digital artwork is provided and is in the wrong format, production delays may occur. Please contact us if you have any questions regarding the artwork format you want to use.

Please do not submit graphics that are copied from the web. These graphics are produced at a setting that is too low to reproduce as good quality artwork.

Preferred Files:

We are looking for vector art in an acceptable format.

Acceptable files include vector - .EPS, .AI, .CDR or similar files that are created in Adobe Illustrator, Macromedia Freehand, or Corel Draw.

Please convert all text to curves/outline to avoid any font issues.

Raster images such as TIFF, EPS, BMP, etc. are accepted for some but not all items.

Please Note:

If none of these artwork files can be provided, an additional art fee will be charged. In most cases there is a \$25.00 charge for black and white artwork and \$35.00 for color artwork.

Questions:

If you have further questions regarding the type of artwork you want to use, please contact Drew Bogner at 859-442-7500 or art@trophyawards.com.
